

DRY ICE

PRODUCTS & SUPPLY

Dry Ice UK offer a market leading range of dry ice products which are available in PELLETS, SLICES or BLOCKS. As the leading supplier of dry ice and associated services we offer a range of products which are manufactured to order to precise and consistent specifications, supported by robust and reliable distribution systems. Our Next Day Delivery Guarantee is testament to our service commitment.

Dry Ice is the common term used for solid carbon dioxide, which is available in many different forms to suit a vast array of applications. The properties of dry ice mean that it is ideal for many temperature control and manufacturing applications.

Dry Ice exists at a temperature of -78.6°C and is colourless, tasteless, non-toxic, odourless and bacteriostatic. On sublimation (i.e. turning directly from solid to a gas), it leaves no residue and remains dry creating an inert atmosphere that is neither flammable nor poisonous.

DRY ICE

PRODUCTS & SUPPLY

PELLETS

Size: 3mm Ø or 9mm Ø

3mm Ø pellets are supplied loose within a sealed bottleneck bag and are typically used for cryogenic cleaning.

9mm Ø pellets are available loose within a container liner or in 10kg bags and are typically used for in-process cooling and temperature sensitive product distribution.

Containers

All our dry ice products are delivered within specially designed and dedicated containers which are both recyclable and food safe. Typically, large volumes are delivered within our own re-usable containers which are both ergonomic and lockable. Smaller quantities are delivered within lightweight insulated containers.

SLICES

Size (mm): 25 x 210 x 125

25 x 105 x 125

Weight: 1kg & 500g

All slices are individually wrapped and supplied in 10kg packs. Slices are user friendly products typically used within the food industry, biotechnology and research industries and for home deliveries.

Delivery

All our products are manufactured to order and, usually dispatched the same day. We are so confident in our manufacture and delivery process we offer a next day delivery guarantee*.

* Guarantee is subject to our Standard Conditions of Sale

BLOCKS

Size (mm): 270 x 210 x 125

Weight: 10kg

Blocks are supplied individually wrapped. Typical applications include bulk cooling and temperature control wholesale transportation.
